Behandling af Covid-19, hvad ved vi om det? Ingenting(Di Saverio, Pata et al. 2020)

Di Saverio, S., et al. (2020). "Coronavirus pandemic and Colorectal surgery: practical advice based on the Italian experience." Colorectal Dis.

AIM: The current COVID-19 pandemic is challenging healthcare systems at a global level. We provide a practical strategy to reorganize pathways of emergency and elective colorectal surgery during the COVID-19 pandemic. **METHOD:** The authors, all from areas affected by the COVID-19 emergency, brainstormed remotely to define the key-points to be discussed. Tasks were assigned, concerning specific aspects of colorectal surgery during the pandemic, including the administrative management of the crisis in Italy. The recommendations (based on experience and on the limited evidence available) were collated and summarized. **RESULTS:** Little is known about the
